## PRODUCT CHARACTERISTICS

The below information are not the Claims to be reported on the package of the final product, but they simply are information derived from the chemicals used in the impregnation of the coloured wipe.

In order to identify the info to print on the package of the final product, please contact Citysan for support.

The product is intended for consumers who may need a practical open/close package of wet wipes ideal for house cleaning.

The product is included in detergents.

Fragrance: lemon and menthol.

The wipe is impregnated by chemicals diluted with water. An effective formula capable of cleaning all surfaces in the house (kitchen surfaces, bathroom and electronic devices). The formula is enriched with a slight perfume and sanitizing for a better perception of cleanliness.

The product cleans, deterges, sanitizes and does not leave streaks.

Neutral detergent: the detergent contains PH equal to 7-8. The formula contains quaternary ammonium salts and isopropyl alcohol.

## INGREDIENTS INFORMATION

Ref. SDS of Citysan s.r.l 50217930 DETERGENT WET WIPES FOR HOUSE CLEANING rev.01 dated 20/05/2019.

## STORAGE OF THE PRODUCT

Keep the product in a cool and dry place, away from sources of heat and out of the light and humidity.

Accurately close the package after opening, through the open/close tape tab to maintain the wet wipes fresh and wet, avoiding constant the inside water evaporation.

The storage of the closed product (before the opening by the consumer) is two years (established by Citysan, no tests on storage have been conducted).

Keep out of the reach of children and animals. Avoid contact with eyes and mucous, the soap may irritate.

The product is not intended for personal hygiene and cleaning.

In case of contact with eyes, rinse thoroughly and consult a doctor. We recommend washing hands after using the product.

Do not throw it in the toilette, do not disperse it in the environment.
