PRODUCT CHARACTERISTICS

The below information are not the Claims to be reported on the package of the final product, but they simply are information derived from the chemicals used in the impregnation of the coloured wipe.

In order to identify the info to print on the package of the final product, please contact Citysan for support.

The product is intended for consumers who may need a practical open/close package of wet wipes ideal for cleaning of car's dashboard, leather steering wheel and seats. The product is very effective to renew leather elements.

Fragrance: Vanilla.

The wipe is impregnated by chemicals diluted with water. An effective formula capable of cleaning leather elements and car's dashboards. The formula is enriched with a slight perfume for a better perception of cleanliness.

The product cleans, deterges, sanitizes and does not leave streaks.

It combines a specific action of siloxane derivatives, which penetrate deeply into the leather, making them elastic and avoiding wrinkling and dryness.

Neutral detergent: the detergent contains PH equal to 7-8.

INGREDIENTS INFORMATION

Product regulated by CLP 1272/2008 CE + REACH 1907/2006 CE + 648/2004 CE (detergents)

Main components: Chemical base + Vanilla water-soluble perfume, water.

It contains: fragrances.

Ref. SDS of Citysan s.r.l 50217929 DETERGENT WET WIPES FOR CAR'S DASHBOARD rev.01 dated 27/05/2019.

STORAGE OF THE PRODUCT

Keep the product in a cool and dry place, away from sources of heat and out of the light and humidity.

Accurately close the package after opening, through the open/close tape tab to maintain the wet wipes fresh and wet, avoiding constant the inside water evaporation.

The storage of the closed product (before the opening by the consumer) is two years (established by Citysan, no tests on storage have been conducted).

Keep out of the reach of children and animals. Avoid contact with eyes and mucous, the soap may irritate.

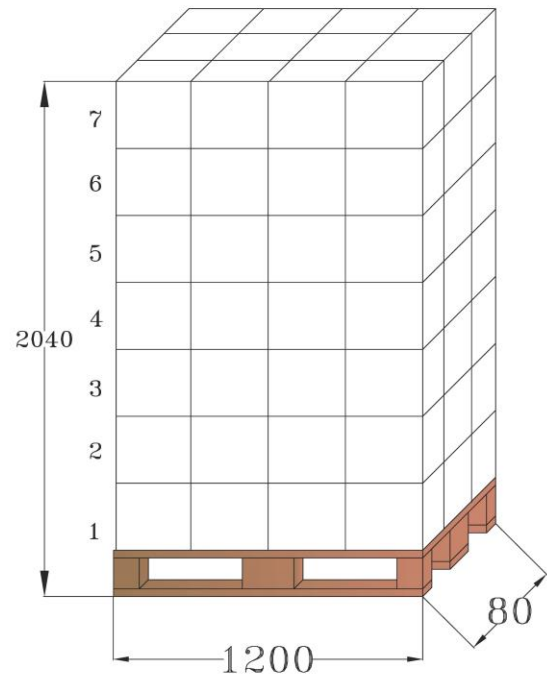

The product is not intended for personal hygiene and cleaning.

In case of contact with eyes, rinse thoroughly and consult a doctor. We recommend washing hands after using the product.

Do not throw it in the toilette, do not disperse it in the environment.
